

REFERENCE

As IBA Group we are one of the biggest international IT service providers in both Central and Eastern Europe. Our branches are located in Belarus, the Czech Republic, Kazakhstan, Bulgaria, Poland and Slovakia with other support centers being based in the United States, Asia and Africa. Our vision is to design customer-centric solutions through trusted relationships and reliable technologies that combine the legacy of the past with the bright outlook for the future. Today, there are nearly 3,000 professionals working for IBA Group and they develop mainframe systems and applications, web applications, enterprise solutions, SAP and other ERP solutions, Business Analytics (BI) as well as mobile applications. In 2019, we were winners in the European IT & Software Excellence Awards.

We have been cooperating with JWW Accounting Office from the very beginning. JWW guided us through the registration of our business entity in Poland with a complete sense of security. JWW is far more than just a traditional accounting office though, as their experts work closely with the Management Board and they are heavily involved in the meticulous reports preparation processes, which are completed in accordance with international standards. The ability to perform in-depth analyses, evaluation of the financial market or the management structure is the solid support we got from JWW Accounting Office, the support which you get by working with a trusted business partner.

We highly recommend JWW Accounting Office to anyone who is looking for a competent team of specialists in accounting, human resources and payroll. The energy, cooperation and experience of the JWW team guarantees successful communication on a daily basis, which in turn translates well into our comfort in conducting our business.

Oleg Loubnevski
Chairman of the Board
IBA Poland Sp. z o.o.
