

LETTER OF RECOMMENDATION

VOTUS is a company with Polish capital offering modern apartments in a great location. Projects created on the basis of many years of experience in the development industry are a guarantee of a good investment for years.

VOTUS has been associated with JWW since its establishing, i.e. since 2017. Our cooperation started at the planning stage. The submission of an application to the National Court Register for registration and subsequent VAT payer registration went very smoothly, and the clear flow of information allowed for an immediate entry into the market.

The ability to perform in-depth analysis, financial market-oriented perspective, and management structure guidance is the security and support we need to conduct our business, and which we receive through cooperation with professionals from the JWW accounting office.
