Północna 15-19/225

54-105 Wrocław

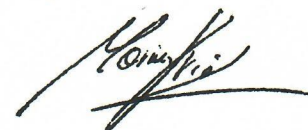

NIP 521-34-52-237

REFERENCE

Established in 1980, YUDO specializes in the production and development of hot runner systems - devices used in injection molding. Our systems are used in various industries to improve technology and quality, making products more convenient and safer. YUDO factories, offices and agencies are located in Asia, Europe, North and South America and Australia.

When choosing an accounting office, we paid attention to reliability and punctuality, because it has a great impact on running our business. JWW performs its duties very well. Payrolls and additional calculations are prepared fully correctly and on time, and specialists are always at our disposal.

We recommend cooperation with JWW - it is a credible and trustworthy business partner.
