## LETTER OF RECOMMENDATION

Rodbud is a company with Polish capital offering ready-made housing investments. The investments created surrounded by greenery are based on the use of the best possible building materials and the experience gained over the years on the market. Modern, tailor-made projects in sought-after locations are a guarantee of a good investment for years.

We have been working with JWW since 2021 and we are happy with this choice. The ability to make in-depth analyses, look at the financial market or the management structure is a guarantee of security and support in conducting business, which we receive thanks to cooperation with professionals from the JWW Accounting Office.

We definitely recommend cooperation with JWW!
